Total patient visits by hcw type

HCW Type	Total visits (365d)	mean/day
NURSE (26)	357	0.0376185
DOCTOR (18)	312606	47.5808219
OT (9)	765	0.2328767
PT (9)	1019	0.3101979
RT (9)	978	0.2977169

Average daily visits per patient per hcw per shift

! Important

Future Analysis to be completed:

- average daily visits per patient per hcw per shift
  - total and broken out by hcw type
- average distinct patients visited per shift
  - broken out by hcw type
- average time between visits per HCW by type
  - verify (intravisit time + duration of visit from Granular Model)
    - doctors mean = gamma(0.52, 90.7) + gamma(5.5, 1.2)
    - nurses mean = gamma(0.54, 55.7) + gamma(5.5, 1.2)
    - therapists mean = gamma(0.52, 61.7) + gamma(3.0, 1.8)
- average number of HCW visits per day/patient (total/{type}) val
- average time between visist by HCW per patient
- average distinct hcw visits per day by patient

Disease

- TBD

punchlist

- Fix the gamma() + gamma() hcw visit intra-event times
- Fix the HCW assignment procedure for nurse and doctor
-
